Notes for the printer

- All files are vector PDFs at 100% finished size, so any size prints sharp. Fabric pieces: add 3 cm hem allowance on every side (no bleed is built in). Cards: print edge to edge, then trim to A5.
- Colours: cream **#F7F3EC** · maroon **#7A1F26** · olive **#5F6B3A** · ink **#2A2523**. Ask for a small fabric test swatch first, because maroon tends to print darker on canvas.
- On natural or undyed linen, the cream background can be left unprinted so the fabric shows through.
- Fabric printing usually takes 1–2 working days, so order 01–03 first.
